License Conditions

A Perpetual License would entitle you to:

- Use of the purchased version of the product indefinitely by the number of users selected (users must be registered named end-users of the license)
- Free technical support for one year from purchase
- All minor and major updates throughout the one year period after purchase

After the one year period from the original purchase, update packages can be purchased at 20% of the current cost of the equivalent licence. These will include all minor and major updates and free technical support throughout the one year period after purchase of the Update & Support package. In subsequent years, the price of the update packages may be increased by no more than the Spanish Retail Price Index.

- Please note that this license does not support usage of the software by alternative users at different times on the same computers, for this purpose you should use a workstation license, or at different times across a network, for this usage you should use a concurrent license

An Annual License would entitle you to:

- Use of the purchased version of the product one year by the number of users selected (users must be registered named end-users of the license)
- Free technical support throughout the validity of the license
- All minor and major updates throughout the validity of the license
- Please note that this license does not support usage of the software by alternative users at different times on the same computers, for this purpose you should use a workstation license, or at different times across a network, for this usage you should use a concurrent license
