University of Nevada, Reno

APPLY TO BE AN E-FIT PACK LEADER

APPLICATIONS DUE MARCH 1ST

The College of Engineering is looking for up to 93 Engineering Pack Leaders

Short for "Engineering-Freshman Intensive Transition," E-FIT is a week-long academic program (August 17-22) designed to increase success for incoming college students. The program offers a glimpse into the University's rigorous academic expectations and college life prior to the start of the semester.

Pack Leaders will be responsible for:

- Mentoring the incoming students
- Helping students navigate campus, attending some study and discipline specific sessions with students, having meals with students
- Running the lab sessions & grading exams and homework assignments
- Interacting with the students and being a good role model

You will be compensated $500 for the 5.5 day period plus 1 day of training with meals included. Mandatory training is on Friday Aug. 16 and the program starts August 17.
